

Possibility, Dreams and Positivity (PDP)

When **Possibility, Dreams and Positivity (PDP)** team up our mind switches into an incredibly **Powerful** state. It is this state of mind which allows us to conceive of Great Inventions, Great Holidays, Good Deeds and Brilliant Adventures.

When we block off the **PDP trio** with Negativity, we switch our mind into survival mode. The easiest way for the human mind to handle survival is to box people and situations into categories.

Such as, "The beachfront is dangerous". Action taken - do not go to the beach. Secondary action - support your belief by telling everyone you know, how dangerous the beach is.

Is the beach always dangerous? For the greater part of the time the beach is a safe place to be. Our survival state has diminished our life and one of the best areas to enjoy it.

Or, "All X people are dangerous." Action taken, - avoid all X people. Secondary action - support your belief by finding a few stories about X people. Build and expand the stories by telling them at every opportunity, to anyone who will listen.

Is it true? A few people who fall into any category are dangerous and most are not. Again our survival method has excluded us from a great part of our life.

To survive is easy. Put the people, religion, race, tradition, culture, gender, position, situation into a danger/ hate box and live within in your safe group or place. That way you will never know anything or experience anything. And whatever is wrong with your world, is always because of circumstances and other people. Justification is a safe and boring haven!

To **Succeed takes the same effort** and is infinitely more **FUN!** Start by opening your mind to what scares you and go and face it. Think of places and people that are mental "no-nos" and go to them. Open your mind, with a little PDP, to go beyond the "impossible" and you will be surprised how **Beautiful and Bountiful life really is.**

Life is great and exciting for those who face their fears. **For they will find lives of freedom and incredible human power.** The rest will trap themselves and those who value their opinions, in a tiny, scary place of little consequence.

So, what is it that you fear? What is it that you need to face? What marvellous adventures await you when you decide to break out of your "safe place"? What legacy will you leave upon this earth? Who will you positively impact? **When will you experience the future?**

Take the trio of **Possibility, Dreams and Positivity** along with you and they will sweep you to places of **Beauty and Splendour**, and to meet **People of Wonder and Excitement!**
